### Character

You think out things that are original in character. These may take widely diverse forms. You might invent some very ingenious contrivance or evolve a new method. Whatever it is, the world will be taken a step forward on your account. There is no doubt that you set great score on honesty, using the term in its widest sense. You require your friends to be honest in purpose, honest in speech, as well as in money affairs. Your greatest weakness lies in the way you treat others. You cannot tolerate inefficiency and you are apt to consider those who do not see eye to eye with you as being hopelessly beneath contempt. It would not be difficult for you to cultivate a more charitable and tolerant view towards those who are likely to earn your disapproval. At any rate, it is well worth trying. You are a person of considerable action. You are never still. You are always making plans and the thing you can least tolerate is inactivity. ### Life Style

You tend to be miserable in many ways because you are afraid to tell people how you feel about them. Thus, you build up hostility. Start immediately to say what is on your mind and you will begin to find meaningful relationships with others.

If promotion is slow, you may become despondent and even spoil your chances by plain speaking. Once you climb up the ladder and reach a good height, your abilities will establish you firmly. ### Hobbies

Vigorous pastimes attract you most and they do you the most good. A really fast game like football, tennis, etc, is a capital outlet for your energies and you will be all the better for it. You will like walking when middle-age is reached, but you will think more of a fourteen than a four mile walk. From among this large circle you will choose a partner, if you have not already done so. Usually, the choice will surprise those who know you best. You will marry and be comfortable. But, marriage will not be everything to you, as it is to most people. Other diversions will be there with it and take your interests away from the home. Should your partner endeavour to curb this inclination, it may lead to a possible rupture.

### Finance

In matters of money, you will be lucky during the early years of your life, but due to your own extravagance and lack of provision for the future, there will be grave danger of your finding yourself in an impoverished condition long before the end of your days. You cannot be too prudent in the matter of finance. You will not be really fitted for money grubbling in any of its forms. You belong more to the mental, intellectual plane and will care little about wealth if you can only have enough for your immediate wants. You belong to the hopeful class of individuals who are rather inclined to live in dreams.

This is the peak of Shani's Sade Sati. Generally this phase of Saturn is the most difficult one. Saturn transiting over natal Moon indicates health problems, character assassination, problems in relationship, mental afflictions, and sorrows. You will find it difficult to achieve success in this period. You may not get results of your hard work and feel restricted. Your constitution and immune system will not be strong. As first house is the house of health, you should start exercising and taking care of your health, otherwise you can be caught by chronic diseases. You may suffer from depression, unknown fear or phobia. You will lack clarity in thinking, action, and decision making. You will be spiritually inclined and will be attracted by intricacies of nature. Acceptance and doing basics right will sail you out of this period.

### Shani Sade Sati: Setting Phase

This is 'setting' period of Shani's Sade Sati. Saturn will be transiting in the 2nd house from the natal Moon, which indicates difficulty on financial and domestic front. You will start feeling slight relief after having two difficult phases of Sade Sati. Still, misunderstandings and financial stress can be seen during this period. Expenses may keep soaring high and you need to continue exercising control. Sudden financial losses and fear of theft is also a possibility. You may be pessimistic in thinking, you are advised to deal with matters enthusiastically. You will require paying good attention to family and personal front, otherwise those can also lead to a bigger problem. For students, education may be slightly affected and they will have to work harder to hold on to their existing level. Results will be slow and almost always with the delay. This is a period which indicates danger and apart from other things, you need to be careful while driving. If possible, stay away from non-veg and your drinking habits to keep Saturn happy. You will be able to sail through this period by intelligently handling your domestic and financial matters.

**Note:** Above predictions are of general nature and are based on general belief that Sade Sati is harmful. Truly speaking, we found that it is not always the case and we recommend reading this article on Sade Sati. Any conclusion based on Sade Sati alone is not correct and has good chances of failing. Certain factors like current running dasa and nature of Saturn also needs to be analyzed before we can conclude whether Sade Sati period will be malefic or benefic. You are advised not to take above forecasts seriously and in case of any doubt, consult a good astrologer.

## || Shadbala and Bhavabala – Strength Calculations ||

Shadbala is a method in Vedic astrology that gives quick insight in the strength of planets and the houses. Sanskrit means 'Six' and hence Shadbala consists of 6 different sources of strength. Shadbala calculation is a laborious process but thanks to computers one can get these strength calculations by just one mouse click. Shadbala method gives a value to each planet and each house. The more points a planet and a house gets in Shadbala the stronger it is.
