Kranthi Yella

Director of Human Resources

Block 3, 1st, 8th Floor,, Hyderabad,
Telangana, 500019, IN

Dear Mr. Yella,

I am excited to apply for the Automation Testing - SDET position at your esteemed organization. As a Computer Science graduate with around 8 months of experience as a Software Tester, specializing in manual testing and automation testing using Selenium and JMeter, I am confident in my ability to contribute effectively to your team.

In my role as a Software Tester at Lovenheal, I gained practical experience in developing and executing test strategies, identifying defects, and ensuring software quality. I also worked on WhatsApp integration automation and tested Reiki report functionalities, showcasing my attention to detail and commitment to delivering reliable software solutions.

Additionally, my academic project involved designing an online voting system using PHP and MySQL, where I ensured data accuracy, seamless functionality, and system security.

I am particularly drawn to Zensar's emphasis on innovation, collaboration, and growth. I am eager to grow alongside a team that values continuous learning and client-centric excellence.

Thank you for considering my application. I am looking forward to the opportunity to discuss how my skills and passion for quality assurance can align with Zensar's vision.

Sincerely,

Kalyani Bakal
